

Checklist of VC39 Staffordshire Macro Lepidoptera

The aim of this list is to help you with your submission of records. The Status codes show how rare a species is. Codes 3 and 4 WILL require some evidence of identification. Some Code 2 species may also require some checking too.

The Change column shows you which species are declining and which are increasing. These changes may cause a species to move up or down a code level in the future.

Those of you who submit records via MapMate please note that only those species coloured in green require trinomial names.

Code 1	Common; ID not a problem
Code 2	Not as common as Code 1 but may need to double-check some species
Code 3	Scarce species; careful checking needed and proof of ID desirable
Code 4	1 to 5 records OR not seen since 1990 OR not on this list: proof of ID always required

g	genitalia need checking
	mapmate users to use trinomial name
X	take care with ID
↓	Number of recorded squares has dropped in last 20 years
↑	Number of recorded squares has increased in last 20 years

Code	Taxon	Vernacular	Status	Change
14	Hepialus humuli	Ghost Moth	1	
15	Hepialus sylvina	Orange Swift	1
